

ANALYST & INVESTOR DAYS

InComm Conferencing is proud to offer our special services available for single and multi-day Analyst & Investor Days. Whether conducted in a hotel ballroom or a large scale presentation room, we are able to provide you with production and webcasting services required to reach a greater audience.

InComm's Field Production Services experts bring an unmatched level of support to your event with years of live event planning and management experience.

FIELD PRODUCTION SERVICES

InComm FPS provides a variety of onsite services ranging from audio/visual production crews, streaming technicians, and web platform specialists.

Onsite Audio / Visual Production

If you are employing the venue's full A/V services and wish to have InComm FPS provide a single audio/visual component, the team quickly coordinates and seamlessly integrates with any facility. Our crews are able to work in both union and non-union facilities.

Streaming / Onsite Encoding Technicians

For a video webcast, we can provide onsite encoding technicians to take the in-room video feed and broadcast the signal to your webcast audience.

Web Platform Specialists

Our web platform specialist can help with a variety of tasks ranging from managing the web platform interface, advancing slides/content, to helping with the webcast Q&A.

ADD A WEBCAST PACKAGE TO YOUR ANALYST & INVESTOR DAYS

Adding a webcast to Analyst & Investor Days gives attendees flexibility in joining the event.

Benefits of Webcasting

- Create an online agenda page showcasing presenting companies
- Offer audience members the option to attend both live and on-demand presentations
- Provide presenting companies with individualized links to post on their websites and in press releases
- Collect registration and reporting details for each webcast
